

COLIN FLETCHER

(Director since 2002)

I have been a member of the Canal Trust since 1989, chairman of MCC branch from 1998 till 2004, and would like to offer myself for re-election to the Board of Trustees.

From 2004 till the re-organisation in March 2016 I served as Project Director (West) focussing on volunteer restored projects between Melksham and Chippenham. Following the separation of the roles of directors and trustees I transferred to the Board of Trustees, while continuing to work with the project team at Pewsham as joint project manager.

I have lived beside the Kennet & Avon canal since 1954 throughout the long period of restoration of that canal. In 1989 thinking that the K&A was near completion, I felt I should join the next big project which was the Wilts & Berks, and here we are, and progress is accelerating.
